

**WORKING WITH  
YOUR TEAM ANALYSIS**

# YOUR TEAM ANALYSIS

This workbook will help you to get the most out of your personality analysis and team analysis, you all now have your own team analysis and your own profiles.

Now it's all about what you get out of it together and how you work with it. For this purpose we have put together some questions and topics on the following pages to help you. You will also find a few examples that should give you an idea.

You should take the Workbook once in a while, make yourself aware of your strengths and adapt your way of working if necessary. As soon as a change is recognizable, inform your team about it.

# WHAT MAKES ME SPECIAL

Please read your personality analysis again. What are the main characteristics you see for yourself. What makes you different? What would you like to add?

**THAT MAKES ME SPECIAL**

**I AM PARTICULARLY GOOD AT THAT**

# SO I WANT TO WORK

Based on your personality analysis, the team analysis and your previous experiences in life: How will you work? What is important to YOU to be supported in your way of working? What is important to YOU to feel good about yourself?

**THIS IS IMPORTANT TO ME IN THE  
WAY I WORK**

**I DO NOT WANT THAT AT ALL**

For example: Do you also want to give tips and contras, or would you rather do something according to the guidelines? Would you rather create something extraordinary or just do clean work that is good and fits? How much coordination do you wish? Do you always want to know the current status, or just want to be able to work on something in a concentrated way?
